Friday 22nd September 2017

Dear Parents and Carers,

Today your child has been given their username and password for Mathletics, an online learning platform that provides students with a space to develop their mathematical fluency. From next week maths homework will be completed through Mathletics. The site itself will provide instant feedback for the children and give them help and support if they are unsure with an area.

In school, we can then access the children's individual results ensuring we can provide the best teaching and learning opportunities for your child. With this in mind, we do ask that the work completed on Mathletics is your child's own work.

No homework will be available for your child to complete until Monday but it would be fantastic for the children to have a go at logging on over the weekend; there are games that the children can investigate.

On Wednesday 27th September from 2:40pm – 3pm, Troddon's team will be available in the ICT suite to show you as parents how to log on if you have had any problems at home.

The children are able to access Mathletics using a PC, laptop, tablet or even a Playstation or X-Box. However, if internet access at home is an issue, and therefore completing homework will be difficult, please speak to your child's class teacher and we will arrange an alternative.

Yours faithfully,

Miss J Penman
Assistant Headteacher, KS1 and Maths Lead
