Email Threat Warning

Along with many other educational establishments across the UK, the school email systems are being subjected to a series of sophisticated email 'phishing' attacks. These attacks have resulted in a small number of random emails that may appear to be entirely legitimate from members of school staff being sent to parents.

These emails take many forms, but have one thing in common – they all contain a link in the form of a green or blue box with "Display this message", "Click to read" or similar wording.

Do NOT Click on any emails with this type of link – doing so may then send similar emails out to any contacts and people you have previously communicated with.

If you have clicked the link, a 2nd false website may appear that asks you to input your password DO NOT DO SO, the aim of the scam is to capture logon details and passwords to be used maliciously at a later date.

If you have clicked on any emails with these links we would advise that you **reset your email password immediately**. The school is continuing to take all possible steps to isolate these continuing attacks and prevent further spread. Please simply delete any emails with any blue/green message box. Subsequent emails from the school not containing the message box are safe and can be treated as genuine.
