HEADTEACHER'S MESSAGE

Dear Parents and Carers

It has been a fun-packed first week back for our children. On Tuesday, our Upper Juniors joined together to plan their own science investigations – there was a real buzz in the hall as they worked together.

On Thursday, Wisteria Class enjoyed their first big trip to Winchester Science Centre. Their behaviour throughout the day was outstanding and they thoroughly enjoyed all of the science learning! In the morning, they had a rocket workshop where they designed their own rockets and saw how far they would shoot off! This was followed by a relaxing time in the planetarium exploring all of the planets in their solar system.

The children were immersed in the rich learning experiences and this was evident in their quotes:

- "I enjoyed it because I just loved it!" Darcy
- "It was amazing because I knew the planets when they were coming." Noah
- "I loved it because I knew all of the space planets." Isaac

The week was then topped off with an enriching World Book Day (see photos on page 4). There was a fabulous array of book character costumes and an engaging assembly which promoted a love of reading. The children were immersed all day and worked hard to create their own picture books linked to "Croc and Bird."

Have a restful weekend.

CHILDREN'S WORK AND WORLD BOOK DAY

Wisteria Class

This week in Wisteria Class, they have been investigating different ways to measure things. On Tuesday, they explored measuring length with different items! They learnt that Dylan was 9 and a half dominoes long and 7 books long.

WORLD BOOK DAY

Today we have been celebrating World Book Day.

We have all dressed up as our favourite book character and it was great fun seeing everyone's costumes in assembly.

We enjoyed listening to extracts of teachers' and children's favourite stories.

All day we have worked hard on planning, drafting and publishing our own picture books based on the story *Croc and Bird* by Alexis Deacon.

We are looking forward to sharing our finished picture books.
